

Dear Guest

Since 2003 Spa Gregorie's has partnered with Greet The Day (GTD), an Orange County based 501(c)(3) nonprofit organization improving quality of life for people affected by cancer through education and integrative oncology care, to offer a Spa Day Retreat for people approaching the end of or who have recently completed their cancer treatment.

GTD Spa Day Retreat guest positions are for the most part reserved for cancer center referred guests. Occasionally a few positions for this very sought after program are available for private guest referrals and we welcome the opportunity to have you take part in this program.

The Spa Day Retreat held on location at Spa Gregorie's in Newport Beach, is a program that provides a morning of relaxation and restoration free of charge for people whose lives have been affected by cancer. The program starts at 8:15am and finishes at noon. The four-hour program includes a relaxing group activity such as breathing exercises, guided imagery and gentle movement, followed by the option of either an individualized massage, facial, manicure or manicure/pedicure performed by a professionally licensed oncology trained therapist. For more information about this program please visit www.GreetTheDay.org

All guests participating in this program are required to have a signed Physicians Release approving their attendance. Please submit the attached paperwork to your physician's office for approval and have the signed Physicians Release document faxed or emailed back to Spa Gregorie's so that we can include you on the guest list.

We can only include you on the guest list once we receive your signed Physicians Release, so please ensure it reaches us by the required date.

We look forward to staying in-touch
